## EXPERIENCE

### Simbian.ai

Lead Front End Developer

Mar 2024 - Present

Bengaluru, India

Developed AI agents for cybersecurity, ensuring seamless, interactive user experiences.

- Directed frontend development for AI-powered cybersecurity products (websites, SaaS platforms, dashboards) using modern UI frameworks including React.js, contributing to adoption by industry giants such as Microsoft, Infosys, TCS, Visa, Wipro, McAfee, NTT, Tech Mahindra, and others.
- Migrated a legacy Java Spring Boot system to Next.js, boosting performance scores from 55% to 95% while achieving 100% SEO, Accessibility, and Best Practices compliance.
- Enhanced application performance, security protocols, and cross-browser compatibility to ensure a robust and responsive UI.
- Collaborated with the CEO, CTO, and Head of Product, coordinating with cross-functional teams to align technical decisions with business goals.

### Studio Lama

Chief Technology Officer

Aug 2022 - Jan 2024

Bengaluru, India

Oversaw innovative digital solutions with a strong emphasis on modern interactive UI development.

- Directed a technical team to enhance frontend development practices and integrate contemporary UI techniques, reinforcing project management processes and talent acquisition.
- Managed full project lifecycles, including requirements gathering, budget and timeline estimation, ensuring on-time and on-scope project completions.
- Delivered six projects successfully within a compressed timeframe of 1.6 years, showcasing efficiency and results orientation.
- Established a comprehensive tech ecosystem encompassing websites, Google Business Profile, analytics platforms, and coordinated all tech-related operations.

### Beshak.org
